Our Team

Who we are

Our team is a union of highly qualified professionals: software developers, project managers, quality assurance engineers, designers and technical writers. When it comes to software development projects, LDS provides you with clear and critical thinking about the fundamental aspects of your business we are engaged to collaborate on.

Care about customer is our top-most priority

We are sensitive to our clients' particular needs. While our preferable methodology is agile, our team is flexible enough to encompass different methodologies and in a way that is complementary to the softer aspects of management. Most importantly, engagement and communication activities are always applied in a manner that is appropriate to the client's environment.

We are highly skilled

Our team leading experts qualification is confirmed by Microsoft Certification (MCTS, MCPD).

Strategic motto

Move forward Constantly and Exploring all Horizons!
